

# ➔ Ø55mm Manual Metallographic Cutting Machine MC-55

## ● Description :

- ◆ Appicated to metal ,Nonmetal material Specimen in order to observe the Metallographic and Lithofacies structure
- ◆ Bentch Type ,Low noise, Anti-water motor,
- ◆ The machine features high performance, and high finish of specimen cutting sections, etc.
- ◆ The machine has nice appearance and it is easy to operate safely and reliably.
- ◆ It is the ideal and necessary specimen preparation instrument used in factories, scientific research institutes and colleges, etc.

## ● Specification:

Model	MC-55
Product Name	Manual Metallographic Cutting Machine
Max Cutting Diameter	55mm
Max .Cutting Section	55 55mm
Specifications of cutting disc:	300 2 32mm
Rotating speed:	2860 r/min
Motor	Y90L-2, 2.2KW
Power supply:	3 phase ,380V, 50HZ
Overall dimensions	650 500 400 mm
Net weight	80kg

## ● Packing List :

Item	Item	Item
Machine Mainframe	Water flow-out Pipe	Product Certificate
Cutting Disc300 2 32mm	Inner hexagon spanner	Instruction Manual
Water flow-in Pipe	36mmWrench	Packing List profile
